Vehicle Service Contract

Protection from
the cost of
maintenance and
unexpected repairs

ASSURANT[®]

Drive with confidence.

You've made a big investment in an amazing new vehicle. And you've got a factory warranty that covers your new vehicle. Which means you're covered for major expenses, right? The answer is yes and no. Your factory warranty may not cover maintenance items like brake pads, batteries and wheel alignment, which can add up. If you're leasing your vehicle, you might have to service or replace certain parts throughout your lease, which you could be charged for at lease end if you don't. **When your warranty expires, your vehicle won't be covered for most mechanical breakdowns** — just when it's more likely you'll have an unexpected failure.

Stay on
top of your
maintenance
and your
money.

You can stay on top of your maintenance and your money with Platinum Plus, a service plan that helps protect you from major out-of-pocket expenses. Platinum Plus covers wear and tear items like brake pads, wheel alignment, battery, hoses and headlamp bulbs. And it covers mechanical breakdowns related to engine, sensors,

AC, ABS brakes, entertainment systems and more. Platinum Plus also includes emergency roadside assistance in all 50 states and Canada, and additional benefits such as rental vehicle and emergency travel expenses. **Keep your vehicle covered, your life moving and your money managed with Platinum Plus.**
